Non UX Experience

Index Manager

Standard & Poors
May - Nov 2016

- Worked on a project to move 200 + indices across teams, this involved compiling and analysing large amounts of data and creating methodologies to send to clients to obtain their approval on the changes.

Asset Servicing Specialist

Citibank
Aug 2014 - May 2016

- Coordinated with tax, lending and settlements as well as senior management to ensure timely and desirable outcomes for our clients and mitigate risk for the bank.
- Designed and implemented a colour code for file sharing for our team that was adopted across the department.

Corporate actions analyst

Morgan Stanley
Feb 2011 - Aug 2012

- Processed 600+ corporate actions including complex high-risk events with 300+ accounts where millions of pounds lay in the balance.

Education

User Experience Design Immersive

General Assembly
May - Jul 2017

- 10 week User Experience Design Immersive course working on projects covering user research, sketching, wire-framing, interaction & interface design, prototyping & testing and working with clients.

Master of Political Economy

City University of London
Sep 2013 - Sep 2014

- An analysis of the effects of online piracy on innovation from a Schumpeterian perspective with the aim of creating a successful intellectual property rights governance model for the European market.

Bachelor of Business Administration

University of Kent
Sep 2006 - Jul 2009

- Dissertation: An analysis of the UK coffee house industry to create a 5 year strategy for the company.
